Ivy amazes me with her total depth and knowledge about beginning an endeavor and offering continuing guidance and direction as aspiring entrepreneurs press on to a successful fulfillment of their dream. She could give a seminar directed to the accounting profession as to how to be a "complete" advisor to their clients. Thank you for your insights!

Ed Hogan, Business Owner (2016)

I am so glad I found Ivy and One Stop Consulting. I had a mess when I came to her from a previous "accountant". Ivy and her team came through for me and got me on the right path. I am so thankful that there are people who do what she does to make life easier for the rest of us small business owners. Highly recommend!
